PROFILE

As a Computer Engineering Student graduating in the next year, I am willing to use my academic knowledge, technical skills, and adaptability to contribute to an initiative-taking company. Although I do not have any preceding work experience, I am dedicated about technology and support a solid work ethic. I am also highly committed to remain learning and stay up to date with approaching trends in the industry, making myself a person that elevate any team's output.

SKILLS

Programming:	<i>Java, C/C#, Kotlin, Python, HTML, CSS, JavaScript, Django, SQL</i>
Technical:	<i>Notion, Office 365 Suite, Azure Fundamentals, SQL Server, Power BI Basics</i>
Communication:	<i>Written and oral communication in Portuguese and English</i>

EDUCATION

Graduation Degree in Computer Engineering

Universidade Lusófona de Humanidades e Tecnologias

Lisbon, Portugal | **2021 – present**

- Solid Foundation in Programming, Computer Architecture, Data Bases/Structures, Algorithms, Web Design/Development, Mathematics Core, CG and Behavioral Skills

Extension Course in Entrepreneurship

Escola Superior de Propaganda e Marketing

Rio de Janeiro, Brazil | **2018 – 2019**

- Practical experience through group projects and presentation, mastered key skills in problem solving, critical thinking, collaboration, creativity, and leadership. Strengthening my understanding of business and gained insights into the startup ecosystem.

Elementary and High School

Colégio Salesiano Região Oceânica

Rio de Janeiro, Brazil | **2009 – 2019**

- During my time at school, I volunteered at a local daycare and in Fundraising Events. I was able to raise awareness about important social issues, work with numerous groups, prove empathy and commitment to social causes.

OTHER ACTIVITIES

Volunteer at “Futuralia” 2023

- I stood for Universidade Lusófona at a National Event named Futuralia, supplying information and guidance to prospective students about our academic programs.

Monitor at TecWeb 2023

- Served as a monitor for the TecWeb Event at Universidade Lusófona, ensuring operation of equipment and supplying support to presenters, guests, and students.

Math/Linear Algebra Tutor

- I recently joined a Tutoring Program to younger students in my course, offering guidance and support to help them achieve academic success.
